Working group 2: Community building

Overview

- Communities

- Barriers

- Finding each other

- Collaborative events

Communities

- Documentary linguists

- Computational linguists

- Software developers

- Speakers

Barriers

- Territoriality

- Lack of knowledge
    - Publishable units
    - Significant actors
    - Vocabulary
    - Precision vs. Robustness

Colloborative events

- Education
  - Code camps
  - University courses
  - Symposiums

- Workshops with working groups

- Shared Tasks

Shared Tasks

- Get computational linguists and documentary linguists interested in each others' work

- Varied expertise in task definition

- Task carried out by computational linguists

Shared Tasks

- What tasks are useful for field linguists?

- What data is available?

  - Model different low-resource situations using a medium-resource language

Shared Tasks

- Speech to text
- Interlinear text glossing
- Morphological analysis
- Dictionary expansion
- Inconsistency detection
- Typological analysis
