

## Broad-based Fee Survey Summary Report - Spring 2025

Respondent Count: 48

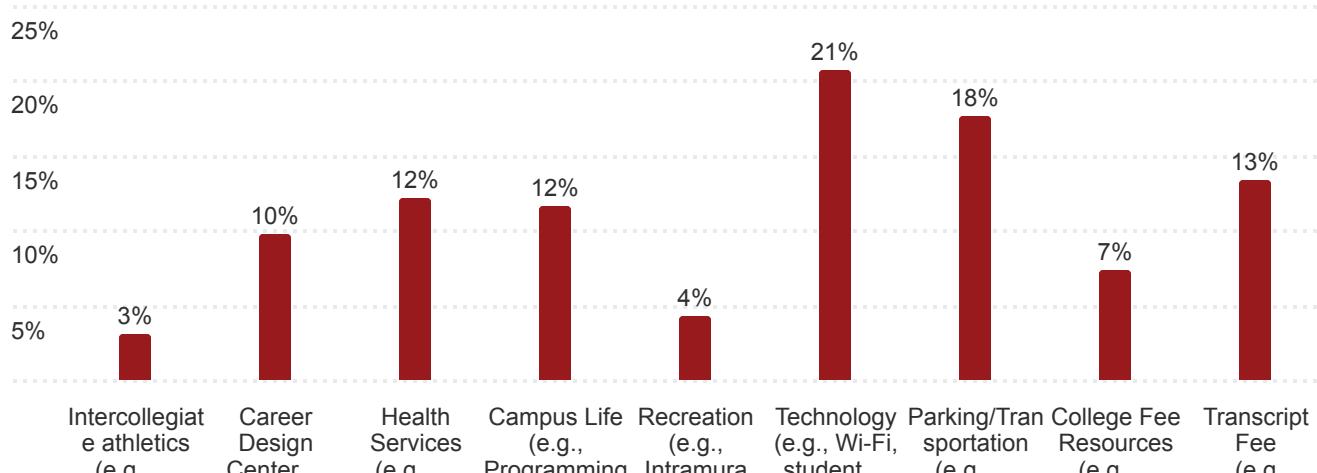

Q2 - Were you aware that information about Broad-based Fees and the programs/services they support is available on the Broad-based Fees website?

48 Responses

Q3 - Which of the following have you utilized in your time as a UB student? (Select all that apply)

43 Responses

■ Percentage of Choices

## Q4 - Are there specific services supported by the Broad-Based Fees that you feel are currently insufficient or not as accessible as you would like?

### Please explain:

16 Responses

No

No

There should be more services for fully online students. I am a PhD student who doesn't come to campus, but because my program is not coded as an online program, the University will not waive these fees. And I don't get much beyond the unofficial transcript because I don't live near Buffalo. It doesn't exactly make me feel like a part of the UB community.

Get rid of the fees

There should be tutoring for numerous courses not just remedial courses.

It is accessible

not enough parking it shouldnt take 20 -40 minutes of circling to park

i would like less of my money to go to sports. we do not have a good college sports atmosphere and no one goes

I think the health clinics and counseling should be shown more on social media and maybe myubhub.

Why would you charge us for a transcript fee and then charge us again for sending transcripts or getting an official one in the mail? And the technology fee being applied to our tuition but the university is ending the laptop loan program makes no sense. Intercollegiate athletics should be charged for students who are involved, many students are trying to pay for school not for others athletic scholarships.

Better dining options

College sports

I feel like I am paying for services I am not even using. Broad-based fees should be abolished.

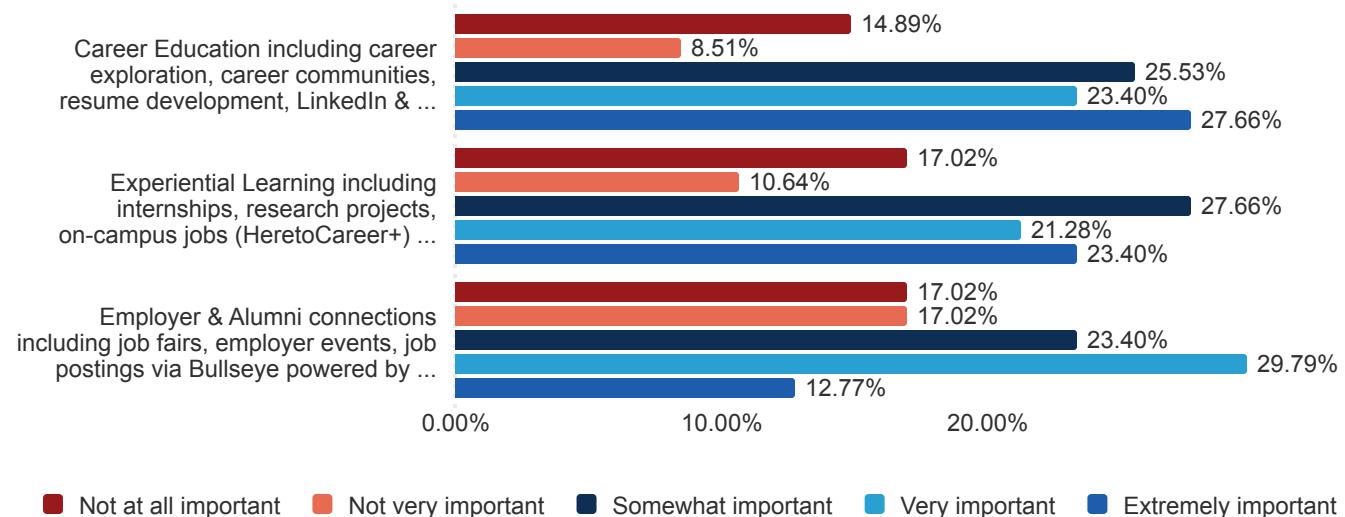

I'm a remote-only grad student so I'm forced to pay the Comprehensive fee even though I have never and will never use 95% of the things that it supposedly pays for.

Still gotta pay to use the printers.

no

## Q5 - How important is it for you to have access to the following career resources?

Q7\_5\_TEXT - Other (please specify) - Text

7 Responses

parking

Developing online communities

No Fees

making the libraries actually sound like a library outside of the silent study (silent study is where you have to be individual and dead silent, whereas a normal library may allow for a few whispering conversations like silverman over winter break)

Should not taken at the first place.

Cheaper tuition

Better network

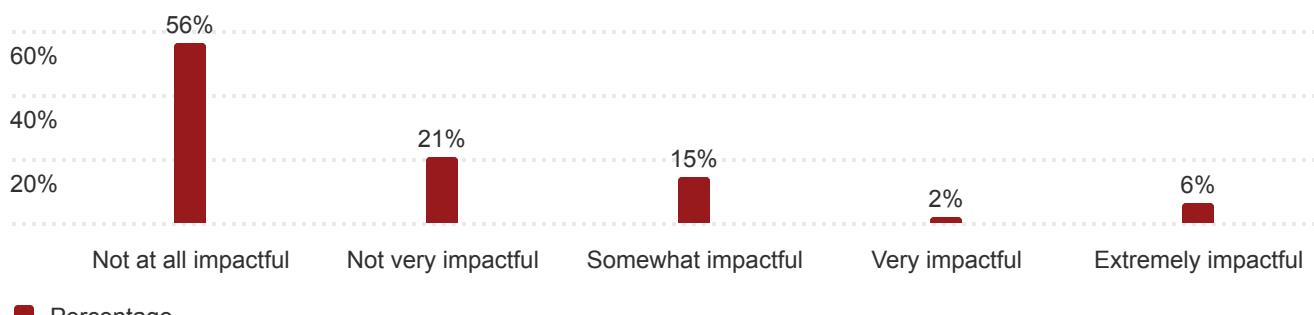

## Q8 - Are you aware that only by logging into the library's website will you see the entirety of the electronic resources we offer?

48 Responses

## Q9 - How impactful do you believe Intercollegiate Athletics success (NCAA Tournament Appearances, National Championships, etc.) are on the value of your degree from UB?

48 Responses

## Q10 - How valuable do you find attending Bulls Athletics events with your fellow students?
