

VPHS COLLABORATION CONVERSATIONS

Innovation For All

Thursday, May 9, 2024

1:00pm on Zoom

Learn more about the UB Startup and Innovation Collaboratory powered by Blackstone Launchpad (CoLab) and how collaborating with the CoLab can benefit both faculty and students. **Innovation skills and an entrepreneurial mindset are vital in research, the classroom, and applied healthcare settings.** The CoLab has proven and adaptable programming that can create valuable experiences for all involved. We look forward to sharing more about who we are, with specific examples of past healthcare focused programs, and discussing future opportunities to collaborate in this informative session.
